

# Yarn Wrapped Sticks (Otherwise known as magic wands!)

This is a super simple craft that only requires two materials: some yarn and some sticks. If you want to expand on this project, tie other objects from the wrapped stick to make a mobile!

## MATERIALS:

- Yarn or String (2-8 colours)
- Sticks scavenged from outside

## STEPS:

1. Tie and knot your first piece of yarn or string around the stick and then start wrapping. Pull the yarn pretty tight when you're wrapping it around the stick.
2. When you're finished with one yarn colour simply tie a knot, snip it off, and tie on your next piece. You can also tie and knot your next colour overlapping slightly with the first colour, or wrap more than one colour at once!

**We would love to see what you make! Share your creative process with us by using the hashtags #eskerfoundation and #museumfromhome.**

Make your sticks into mobiles by attaching beads or other objects!
